

Elevate your Textile Production: Explore Stenmech's machinery at GTTES 2025!

In the heart of Surat, Gujarat-known as the Textile City of India, Stenmech Engineering Works Pvt. Ltd. is making waves in the textile processing machinery sector. With a commitment to excellence and innovation, this leading manufacturer and exporter has carved a niche for itself, not just in India but also in international markets.

A Legacy of Expertise

Founded and spearheaded by the experienced duo of Mr. Manoj Gandhi, Technical Managing Director, and Mr. Vinod Gandhi, Director, Stenmech is built on a foundation of extensive knowledge and cutting-edge technology. With decades of combined experience in the textile industry, they have successfully installed over 1,000 various types of textile machinery across India, including 50 Stenter Machines operating efficiently in Bangladesh. This impressive track record is a testament to their commitment to quality and customer satisfaction.

Stenmech takes pride in its ability to support clients at every stage of their journey. The company's motto-"Customer satisfaction is our motto", drives them to collaborate closely with clients to foster long-term business relationships. Their focus on mutual growth and development makes them a trusted partner for textile processing needs.

Innovative Machinery Solutions

Stenmech's product lineup is designed to cater to the diverse needs of the textile industry. Their flagship offerings include:

- **Hot Air Stenter (Oil & Gas):** Engineered for precise control over fabric drying and finishing, these stenters enhance production efficiency and fabric quality.
- **Float Dryer (Oil & Gas):** This innovative solution allows for gentle drying of fabrics, minimizing the risk of damage and ensuring consistency.
- **Relax Dryer (Oil & Gas):** Ideal for sensitive textiles, the relax dryer maintains the integrity of the fabric while effectively removing moisture.
- **3 Bowl Padding Mangle:** This machine offers superior application of dyes and chemicals, optimizing the dyeing process.
- **Vacuum Slit:** This device ensures precision in cutting fabrics, providing clean edges and reducing waste.

Each of these machines is crafted with the latest technology, ensuring that they meet international standards while maximizing productivity and quality.

Achievements and Recognitions

Stenmech's achievements speak volumes about their dedication to the textile industry. One of their most notable successes is the installation of more than 40 Stenter Machines under one roof at Aaiswarya Dyeing Mills Pvt. Ltd. in Kadodara, Surat. This remarkable feat showcases their capability to handle large-scale projects while maintaining high standards of quality and efficiency.

The company is not just recognized for its performance but also for its commitment to excellence, being ISO 9001:2015 certified. This certification underscores Stenmech's adherence to quality management principles, which are essential for delivering superior products and services.

Join Stenmech at the GTTES 2025!

As the textile industry continues to evolve, Stenmech Engineering Works is at the forefront, ready to meet the challenges of tomorrow. For those interested in exploring their innovative solutions and learning more about their products, there's no better opportunity than the upcoming GTTES 2025 Exhibition being held from 21st-23rd of February at Mumbai.

Attendees are encouraged to visit Stall No. E-12 in Hall 3, where Stenmech will be showcasing their state-of-the-art machinery and technology. This is a chance to engage directly with the experts, gain insights into the latest trends in textile processing, and discover how Stenmech can support your business needs. Don't miss this opportunity to connect with a trusted name in the industry-mark your calendars and see you at the GTTES 2025!
