

Unleashing Innovation: Explore the Future of Nonwovens with T.U.E Hi-Tech at GTTES 2025!

In today's fast-paced manufacturing landscape, efficiency and quality are paramount. Enter T.U.E Hi-Tech, a trailblazer in the nonwovens industry. With a comprehensive range of solutions that cover every aspect of nonwoven fabric production—from fibre opening to web forming, bonding, and finishing, T.U.E Hi-Tech is redefining what it means to be a leader in this space.

A Commitment to Excellence

At T.U.E Hi-Tech, quality isn't just a buzzword, it's a core value. Their processes are bolstered by certifications such as ISO 9001-2001, CE, and UL, ensuring that every product meets the highest standards. This commitment to excellence is not just about compliance, it's about delivering value to their customers through intelligent direction and skilful execution.

Their integrated manufacturing setup enables them to supply complete production lines tailored to a wide variety of industries. Whether it's automotive components, housing insulation, geotextiles, filtration products, or even cleaning wipes, T.U.E Hi-Tech has the expertise to meet diverse needs with precision.

Innovative Solutions for Every Industry

T.U.E Hi-Tech understands that different industries require different solutions. That's why their offerings range from bale-openers and cutting machines to advanced carding machines and needle looms. Each product is designed to facilitate efficient production, ensuring that their clients can scale their operations without compromising on quality.

For the automotive industry, T.U.E Hi-Tech offers specialized nonwovens that enhance safety and comfort. In the realm of housing, their acoustic and thermal insulation products are engineered to provide optimal performance. Even in the world of bedding and furniture, their mattress felts deliver the comfort that consumers demand.

The Power of Teamwork

At the heart of T.U.E Hi-Tech, is a dedicated team that thrives on collaboration. They

believe that great ideas emerge from teamwork, and encourage their staff to innovate continuously. This culture not only enhances the internal processes but also strengthens the customer service, helping them build lasting relationships with their clients.

Experience the future of non wovens at GTTES 2025!
