

Discover the Future of Textile Innovation with Tarasvat Industrial Electronics at GTTES 2025

Established in 2014, Tarasvat Industrial Electronics has quickly risen to become a trusted leader in the textile industry, specializing in innovative electronic jacquard systems. With over a decade of experience, the company has built a strong presence across multiple states in India and expanded its reach into international markets. Their commitment to quality and innovation has led to the successful sale of over 30,000 electronic jacquard systems worldwide, earning the trust and satisfaction of customers.

A Diverse Portfolio Tailored for Modern Needs

Tarasvat understands that the textile industry is continuously evolving, and so are the needs of its clients. In addition to their flagship electronic jacquard systems, they offer a comprehensive range of products designed to enhance efficiency and performance in textile operations. Their portfolio includes:

- **Rapier Machine Control Panels**
- **Dobby Machine Control Systems**
- **Weft Selector Systems**
- **CL Card Tester and Module Coil Tester**

Each product is meticulously crafted to deliver unmatched performance, efficiency, and reliability, ensuring that clients can focus on creating exceptional textile products.

Innovation at their core

Innovation is at the heart of Tarasvat's mission. Their dedicated team of 30 skilled professionals, continuously works to develop new solutions that meet the evolving demands of the industry. The company is excited to introduce its latest offering: the **Online Production Report System**. This advanced solution is designed to enhance productivity, streamline operations, and provide real-time insights to clients. With this system, businesses can monitor production processes and make informed decisions on the go, representing a significant step forward in textile manufacturing.

Committed to customer success

Tarasvat believes that its success is directly linked to the success of its customers. This philosophy drives their commitment to research and development, ensuring that their solutions remain at the forefront of technology. By listening to clients and understanding their challenges, Tarasvat works collaboratively to create solutions that empower businesses to thrive in a competitive marketplace.

Join them at GTTES 2025!

Tarasvat Industrial Electronics will be showcasing its innovative products and solutions at the **GTTES 2025** exhibition. This event presents an incredible opportunity for industry professionals and enthusiasts alike to witness firsthand the technology that is transforming the textile sector. Visitors are encouraged to stop by the Tarasvat stall for an engaging experience.

At the booth, attendees can:

- Explore the range of electronic jacquard systems and other cutting-edge products.
- Engage with knowledgeable team members who can answer questions and provide insights into how these solutions can benefit operations.
- Explore the scope of the Online Production Report System and see its potential to revolutionize production processes.

Why visit the exhibition?

By visiting the Tarasvat stall at GTTES 2025, attendees are not just exploring products, they are discovering partnerships that can drive their businesses forward. The company's passion for empowering the textile industry, combined with its commitment to quality and customer satisfaction, sets it apart from competitors.

Mark your calendars for GTTES 2025 from 21st-23rd February and make sure to visit Stall No. A-12, Hall-3! Don't miss the chance to connect with this industry leader at GTTES 2025!
