

Yantai Sunny Moulding at GTTES 2025: Precision, Innovation & Excellence in Jacquard Technology

The world of weaving is built on precision and innovation, and Yantai Sunny Moulding Science Co., Ltd. has been leading the way in electronic jacquard modules and precision moulding for over two decades. As a trusted name in the industry, the company is set to make waves at GTTES 2025, bringing its latest advancements in jacquard technology to India's thriving textile sector.

 Visit Yantai Sunny Moulding at Stall A22, Hall 3

 21st – 23rd February 2025 | Bombay Convention & Exhibition Centre, Mumbai, India

If you're in the weaving and textile industry and looking for high-performance jacquard modules that redefine efficiency and durability, this is your chance to witness cutting-edge technology firsthand!

The Legacy of Yantai Sunny Moulding: Where Precision Meets Innovation

Founded in 2003, Yantai Sunny Moulding Science Co., Ltd. has been dedicated to advancing electronic jacquard technology with an unwavering focus on quality, performance, and durability. The company launched its own YGMS brand, delivering a range of M4, M5, M6, M7, and three-position modules that have gained a strong reputation in both domestic and international markets.

With a **95% share of international business operations in India**, Yantai Sunny has successfully supplied over **10 million jacquard modules**, equivalent to **USD 60 million**, supporting **India's top textile manufacturers** with:

-  Top-tier product quality & high precision
-  Excellent after-sales service & technical support
-  Innovative and market-driven jacquard solutions

The company's expansion into Pakistan, Indonesia, and the Middle East further underscores its global reputation as a key player in jacquard technology.

Revolutionary M6 & M7 Jacquard Modules: The Future of Weaving

Newly Developed M6 & M7 Modules

The M6 and M7 modules have been designed for unparalleled efficiency and durability, making them the go-to choice for high-performance jacquard weaving. These modules:

- ✓ Enhance fabric quality with superior pattern precision
- ✓ Offer a compact, durable, and energy-efficient design
- ✓ Deliver faster response time & smooth operation

Why the M7 Module is a Game-Changer?

The M7 electronic jacquard module, specifically designed for large hook jacquard machines, has revolutionized weaving efficiency. It has quickly gained universal acclaim from customers due to its compact design, advanced technology, and superior functionality.

If you're in the market for the latest jacquard innovations that ensure seamless weaving and enhanced durability, the M6 and M7 modules are the perfect choice for your operations!

Why Yantai Sunny Moulding is a Must-Visit at GTTES 2025?

-  A Leader in Jacquard Innovation – Two decades of engineering expertise.
-  High-Quality, Durable Modules – Designed to maximize weaving efficiency.
-  Global Recognition – A trusted partner for textile companies across India, Pakistan, Indonesia & the Middle East.
-  Tailored Solutions – Customizable jacquard modules for various textile applications.
-  Reliable Technical Support – Backed by a strong service network to assist manufacturers.

Experience the Future of Jacquard Weaving at GTTES 2025!

Witness next-gen jacquard technology in action!

Explore how M6 & M7 modules can transform your weaving process.

Meet experts & discover tailor-made solutions for your textile business.
