Plot No. 211, Nariman Point, Mumbai – 400021

Date: March 5, 2025

Subject: Letter of Appreciation for Exceptional Hospitality and Success of GTTES 2025

Dear Sir,

I am writing to express my profound thanks for the superb hospitality extended to me during my participation in the Global Textile Technology and Engineering Show (GTTES) 2025, held in Mumbai from February 21 to 23, 2025. The meticulous planning and execution of this event by the India ITME Society have left an indelible impression, and I wish to commend your team's unwavering commitment to excellence.

The arrangements for my stay, including the comfortable accommodation at The Leela Mumbai, seamless transportation services, and thoughtfully curated meals, exemplified professionalism and attention to detail. The provision of airfare support further underscored your team's dedication to ensuring a stress-free experience for international delegates. Such hospitality not only enhanced my participation but also reflected the warmth and inclusivity that India is renowned for.

The exhibition itself was a testament to the transformative potential of the global textile industry. The cutting-edge innovations and technologies on display, particularly in digital printing, sustainable manufacturing, and smart textiles, were both inspiring and forward-thinking. The on-site demonstrations provided tangible insights into the practical applications of these advancements, bridging the gap between theory and industry needs.

The concurrent seminars and symposiums, especially those addressing standardization and indigenous technological development, offered invaluable knowledge-

sharing platforms. Additionally, the cultural shows and sustainable fashion events elegantly highlighted India's rich heritage while advocating for eco-conscious practices—a harmonious blend of tradition and modernity.

The B2B pavilion and structured networking sessions facilitated meaningful dialogues with industry leaders, policymakers, and innovators. These interactions have opened avenues for potential collaborations between Indian and Myanmar's textile sectors, aligning with my role as Economic Attaché focusing on bilateral trade growth.

Once again, I extend my heartfelt appreciation to you and the entire India ITME Society for orchestrating an event of such scale. GTTES 2025 has set a signature standard for global textile exhibitions, and I am confident it will catalyze sustained progress in our industries. I look forward to future engagements and remain committed to strengthening the economic ties between India and Myanmar.

Yours sincerely,

(For) Consul General

(Kaung Htut Aung, Economic Attaché)
